

TECHNICAL DATA SHEET

Black PE masterbatch for general-purpose film application

BLACK MASTERBATCH PE32122

BLACK PE32122 is a black PE based masterbatch, using premium carbon black, with high fluidity and jet black properties. This product is designed for general-purpose LDPE/HDPE film application.

Method of Usage:

BLACK PE32122 is designed for ease of dispersion and is therefore suitable for direct addition and mixing with plastic resins in mixer, avoiding pollution and mal-scattering problems caused by pigment.

Range of Application:

BLACK PE32122 is designed for use in LDPE, HDPE, LLDPE and PP.

Physical Properties:

Carrier:	PE
Pigment Content: Carbon Black	50%
Density: 23°C	750kg/cm ³
MFI: 21.6kg/190°C	20g/10min
Compatibility:	LDPE, HDPE, PP and Ethylene Copolymer

Quoted test results should not be used for specification purposes but are typical test values intended for guidance only without warranty.

Packaging:

BLACK PE32122 is supplied in pellet form and packed 25kg/bag. It should be stored in a dry place.
